**Andrew**: boom, headshot
**me**: you are gay
**Andrew**: gay like a fox
**me**: oh hai
**me**: so you gonna do some hacking?
**Andrew**: this is a big vul
**Andrew**: that thing I do at coffee shops?
**Andrew**: with this flaw, I can now do it to anyone with that modem
**Andrew**: from anywhere
**me**: do you have way of finding those modems?
**Andrew**: time warner owns specific subnets
**Andrew**: you can jsut portscan them
**Andrew**: itll turn up hundreds of them
**Andrew**: also, remember you were asking about ip tracing?
**me**: make a GUI in Visualbasic
**me**: that's how you trace ips
**Andrew**: right
**Andrew**: ill probably use haskell though
**me**: also zoom in
**me**: whirrr whirrr whirrr
